WELCOME TO FORTUNE DRILLING

At Fortune Drilling, we are driven by a single mission: to offer a complete range of services within the oil & gas industry while ensuring peace of mind and operational success for our clients.

Our expertise lies in the supply, management, and operation of drilling rigs and advanced hydraulic workover units. From our Satti Jack-Up Rig operating offshore to our purpose-built stand-alone units for onshore workover, we bring cost efficiency and technical excellence to every project.

Safety is at the core of our identity. We are proud of our capability to complete contracts for major operators with zero lost time incidents, proactively identifying hazards to protect people and the environment. Thank you for your interest in Fortune Drilling. We are ready to tailor our operations to meet your specific requirements.

Sincerely,
Fortune Drilling Management

ABOUT US

Our Company As Fortune Drilling we offer a complete range of services within the oil & gas industry, we specialise in the supply, management and operation of drilling rigs and advanced hydraulic workover units, offering a range of drilling services.

Our Team & Approach Our diverse and highly experienced team understands both the technical and commercial importance of our clients' requirements, ensuring them peace of mind and operational success.

Our team holds years of specialist experience and has performed a wide range of drilling and workover operations internationally. These specialists bring a wealth of knowledge to each program and are able to tailor the operation to meet specific customer requirements.

Safety Focus Our experience controls the risks encountered during both drilling and intervention operations and ensures protection of your wells and enhanced safety.

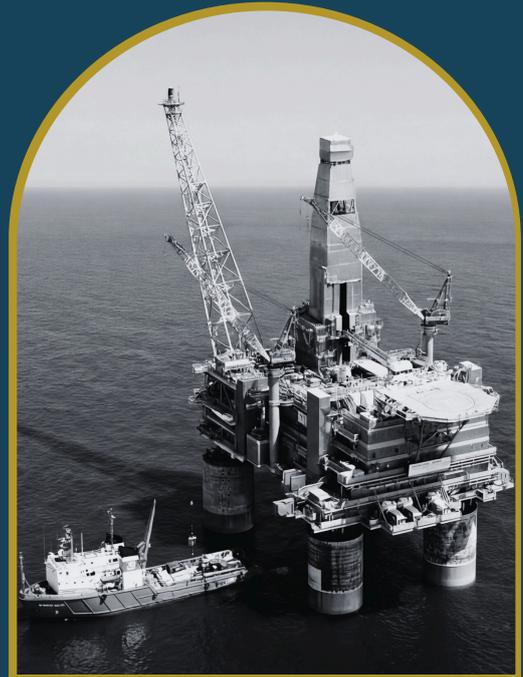

In March 2024, Fortune acquired 3Core DMCC, expanding operations into Turkmenistan, Mexico, and the Netherlands. Through this acquisition, we integrated a management team with over 35 years of experience in drilling rig operations."

OUR SERVICES

OFFSHORE

Fortune Drilling fleet of offshore is capable of successfully completing contracts for major operators with zero lost time incidents.

Our Services include:

- Production and Exploration
- Well Intervention services
- MODU Rental
- Advanced Hydraulic Workover/Snubbing
- Plug & Abandonment

ONSHORE

Our purpose built packages are designed and manufactured in house to be rigged up as stand-alone units and used for the work over of existing wells.

- The rig is designed to complete all work-over functions completed by a conventional rig.
- Additional capability of working with pressure in snubbing and under balanced situations.
- Cost Efficiency: Typically daily operating costs much lower than those for standard drilling or workover rigs.

INTEGRATED SUPPORT

- **Logistics:** As part of our integrated services, Fortune Drilling offers both onshore and offshore logistics, utilizing our own fleet of PSV, AHTS, crew boats and barges.
- **Management:** Manning and Manpower Management, Rig Management.

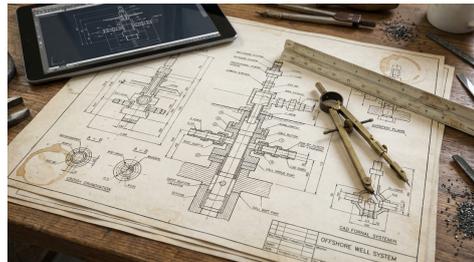

OUR SERVICES

PROJECT MANAGEMENT

Our diverse and highly experienced team understands both the technical and commercial importance of our clients' requirements, ensuring them peace of mind and operational success.

Our team holds years of specialist experience and has performed a wide range of drilling and workover operations internationally. These specialists bring a wealth of knowledge to each program and are able to tailor the operation to meet specific customer requirements, a capability that extends through the full range of Fortune Drilling's integrated services.

Our experience controls the risks encountered during both drilling and intervention operations and ensures protection of your wells and enhanced safety.

OUR SERVICES

DRILLING EQUIPMENT RENTAL

Fortune Drilling offers comprehensive rental solutions for a diverse range of high-specification drilling assets. Our rental inventory includes **Drilling Jack-ups, Land Rigs, Tender Assisted Rigs, and Swamp Barges.**

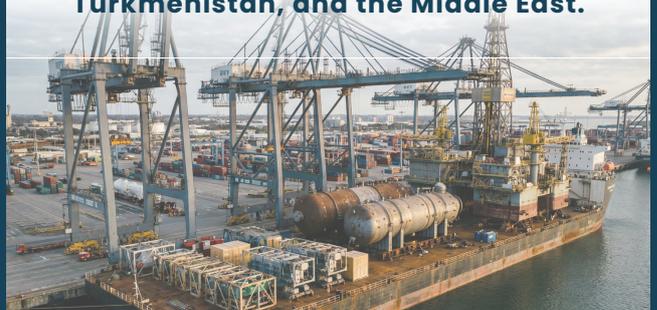

We provide flexible leasing packages tailored to client needs, ensuring that all equipment—whether for shallow water or onshore operations—is fully certified, refurbished, and ready for immediate deployment.

MARINE LOGISTICS & VESSEL RENTAL

We specialize in the chartering and rental of support vessels to facilitate seamless logistics for the oil and gas sector. Our fleet includes **PSVs, AHTS, Crew Boats, Liftboats, and Barges.**

We provide end-to-end marine logistic services, specifically managing the transportation of heavy machinery and drilling equipment from manufacturing plants (e.g., in China) directly to project sites in Kazakhstan, Turkmenistan, and the Middle East.

FLEET

The jack-up that we utilize is made in a offshore drilling rig built in Kazakhstan.

Specifications:

- **Hull Design:** Triangular hull design with three legs.
- **Dimensions:** Width: 72 m | Height: 64 m
- **Leg Length:** 119 m
- **Total Weight:** 10,800 tonnes
- **Water Depth:** Capable of drilling in water depths from 5 to 80 m.
- **Well Depth:** Maximum well depth up to 6,000 m.

OUR PROJECTS

As a reference we can mention the following project. We do not share all work we have accomplished due to the confidential nature of our business. If you wish to get more information please feel free to contact us on FortuneDrilling.com

The Barzan Gas Project (Qatar)

As Fortune Drilling, we have participated as Chartering of a Jack-Up Drilling Rig under Bareboat for The Barzan Gas Project is a major \$10.4 billion upstream development in Qatar's North Field. It produces approximately 1.4 billion standard cubic feet of sales gas per day for domestic power and water, alongside ethane, condensate, and sulfur.

Project Scope

- **Location:** Offshore North Field and onshore at Ras Laffan Industrial City.
- **Capacity:** 1.4 Bscfd of sales gas, 2,000 tons/day of ethane, 1,500 mt/day of LPG, 30,000 b/d of condensate, and 3,500 mt/d of sulfur.

- **Infrastructure:** Three unmanned offshore wellhead platforms, subsea pipelines, and a large onshore processing plant.
- **Purpose:** To meet the growing demand for energy in Qatar's domestic market, particularly for power generation and water desalination, aligning with Qatar National Vision 2030.
- **Operations:** The facility achieved initial production and was inaugurated in 2022, supplying fuel for infrastructure projects including the 2022 FIFA World Cup.

The project, which began development in 2011, is critical to ensuring a sustainable supply of clean-burning natural gas for industrial growth in Qatar.

KEY

PROJECTS & Strategic Partnerships

China Consortium

Exclusive consortium with Fortune Group and major engineering plants for large-scale machine building and equipment supply.

Kazakhstan Logistics

Marine logistics operations and boat rental services for transferring equipment from Chinese factories to Kazakhstan.

Kazakhstan Supply

Supply and sale of specialized equipment to the Kazakhstan Gas Processing Factory.

Dubai Operations

Strategic partnership with Tecta for Oil & Gas equipment supply and logistics boat rental.

QHSE

<p>Quality</p> <p>Services and products consistently meet requirements and customer expectations.</p> 	<p>Health</p> <p>Promoting the well-being of employees, customers, and stakeholders.</p> 
<p>Safety</p> <p>Protecting people from harm, focusing on zero incidents.</p> 	<p>Environment</p> <p>Minimizing negative impact and promoting sustainability.</p> 

QHSE Declaration of Fortune Drilling

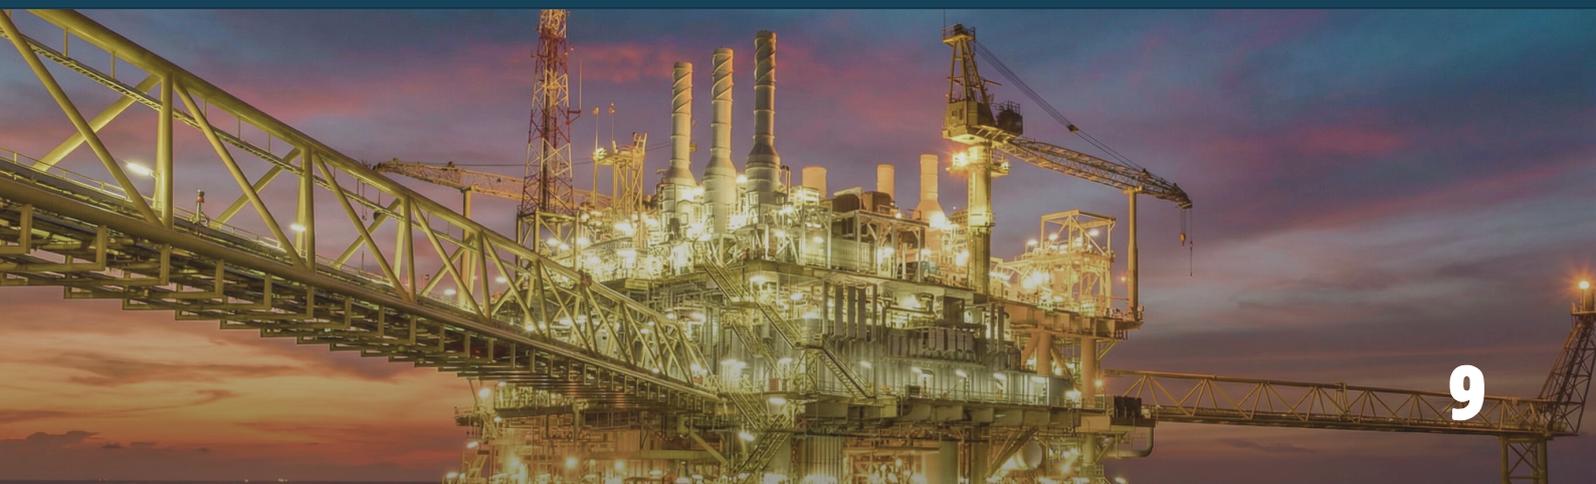

We follow a comprehensive framework or management system used by organizations to ensure high standards in service delivery, employee well-being, workplace safety, and minimal environmental impact, integrating policies and procedures to meet regulations, industry standards, and sustainability goals. It's crucial for operational excellence, risk reduction, and maintaining a positive corporate image.

Core Components of our QHSE Policy

- **Quality:** Ensuring services and products consistently meet requirements and customer expectations.
- **Health:** Promoting the well-being of employees, customers, and stakeholders.
- **Safety:** Protecting people from harm and ensuring a secure working environment (often focusing on zero incidents)
- **Environment:** Minimizing negative environmental impact, reducing resource use, and promoting sustainability.

Our QHSE Policy helps us proactively identifies and mitigates potential hazards, helps us meet legal and regulatory requirements, fosters a culture of continuous improvement in operations and eventually builds trust with all our associates and customers.

Implementation of a sustainable QHSE policy requires integrated systems aligned with international standards. Training employees to build necessary skills and awareness plays an essential role in sustaining a long-standing QHSE policy. Relatively the performance should be regularly audited, evaluated, and reviewed.

CONNECT WITH US

FORTUNE DRILLING

Our experienced team ensures peace of mind and operational success across offshore rigs, workover units, and integrated logistics. We are ready to tailor our safety-focused operations to your specific needs.

Due to the confidential nature of our business, we invite you to reach out directly to discuss how we can support your next project.
